

Independent Auditor's Report

To the Members of Godrej Foods Limited (formerly known as Godrej Tyson Foods Limited)

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of Godrej Foods Limited (formerly known as Godrej Tyson Foods Limited) (the "Company") which comprise the balance sheet as at 31 March 2025, and the statement of profit and loss (including other comprehensive income), statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including material accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 ("Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31 March 2025, and its profit and other comprehensive loss, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Act. Our responsibilities under those SAs are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the financial statements.

Management's and Board of Directors' Responsibilities for the Financial Statements

The Company's Management and Board of Directors are responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the state of affairs, profit/ loss and other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is also responsible for overseeing the Company's financial reporting process.

Independent Auditor's Report (Continued)

Godrej Foods Limited (formerly known as Godrej Tyson Foods Limited)

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management and Board of Directors.
- Conclude on the appropriateness of the Management and Board of Directors use of the going concern basis of accounting in preparation of financial statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order") issued by the Central Government of India in terms of Section 143(11) of the Act, we give in the "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

Annexure B to the Independent Auditor's Report on the financial statements of Godrej Foods Limited (formerly known as Godrej Tyson Foods Limited) for the year ended 31 March 2025

Report on the internal financial controls with reference to the aforesaid financial statements under Clause (i) of Sub-section 3 of Section 143 of the Act

(Referred to in paragraph 2(A)(i) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

Opinion

We have audited the internal financial controls with reference to financial statements of Godrej Foods Limited (formerly known as Godrej Tyson Foods Limited) ("the Company") as of 31 March 2025 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

In our opinion, the Company has, in all material respects, adequate internal financial controls with reference to financial statements and such internal financial controls were operating effectively as at 31 March 2025, based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the "Guidance Note").

Management's and Board of Directors' Responsibilities for Internal Financial Controls

The Company's Management and the Board of Directors are responsible for establishing and maintaining internal financial controls based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to financial statements.

Meaning of Internal Financial Controls with Reference to Financial Statements

company's internal financial controls with reference to financial statements is a process designed to

Annexure B to the Independent Auditor's Report on the financial statements of Godrej Foods Limited (formerly known as Godrej Tyson Foods Limited) for the year ended 31 March 2025 (Continued)

provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to financial statements include those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with Reference to Financial Statements

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial controls with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Godrej Foods Limited

(Formerly Known as Godrej Tyson Foods Limited)

Notes to the financial statements

for the year ended 31 March 2025

(Currency: Rupees in lakhs)

1.1 General information

Godrej Foods Limited (Formerly known as Godrej Tyson Foods Limited) ("the Company") is a limited company, which is domiciled and incorporated in the Republic of India with its registered office situated at "Godrej One", 3rd Floor, Pirojshanagar, Eastern Express Highway, Vikhroli (East), Mumbai – 400 079.

Till 27 August 2024, the Company was subsidiary of Godrej Agrovet Limited (GAVL), the India based Company which holds 51% of the paid-up equity share capital. Tyson India Holdings Limited, Mauritius, holds remaining 49% of the paid-up equity share capital. From 27 August 2024 the Company is a wholly owned subsidiary of Godrej Agrovet Limited. Subsequent to which the company changed its name to Godrej Foods Limited.

The Company is mainly in Chicken processing business (fresh and frozen) and also into manufacturing and selling of Value-Added Chicken products. In addition to this, the Company is into selling and marketing Vegetarian Value added products.

1.2 Basis of preparation and presentation

(i) Statement of compliance with Ind AS:

The accompanying financial statements have been prepared in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) as per the Companies (Indian Accounting Standards) Rules, 2015, as amended and notified under section 133 of the Companies Act, 2013, (the 'Act') and other relevant provisions of the Act.

The financial statements of the company for the year ended 31 March 2025 were authorized for issue in accordance with a resolution of the Board of Directors at its Meeting held on 22nd April 2025.

(ii) Historical cost convention

The financial statements have been prepared on a historical cost basis, except for the following:

- Certain financial assets and liabilities that are measured at fair value;
- Biological assets – measured at fair value less cost to sell; and
- Defined benefit plans – plan assets measured at fair value less present values of defined benefit obligation

(iii) Functional and presentation currency

These financial statements are presented in Indian Rupees (INR), which is also the Company's functional currency. All the financial information have been presented in Indian Rupees (INR) and all amounts have been rounded-off to the nearest lakhs, except for share data and as otherwise stated. Due to rounding off, the numbers presented throughout the document may not add up precisely to the totals and percentage may not precisely reflect the absolute figures.

1.3 Key estimates and assumptions

While preparing financial statements in conformity with Ind AS, the management has made certain estimates and assumptions that require subjective and complex judgments. These judgments affect the application of accounting policies and the reported amount of assets, liabilities, income and expenses, disclosure of contingent liabilities at the date of statement of financial position and the reported amount of income and expenses for the reporting period. Future events rarely develop exactly as forecasted and the best estimates require adjustments, as actual results may differ from these estimates under different assumptions or conditions.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised prospectively.

Judgment, estimates and assumptions are required in particular for:

- **Determination of the estimated useful lives**

Useful lives of tangible assets and intangible assets are based on the life prescribed in Schedule II of the Companies Act, 2013. In cases, where the useful lives of assets are different from as prescribed in Schedule II are based on technical advice, after taking into account the nature of the asset, the estimated usage of the asset, the operating conditions of the asset, past history of replacement, anticipated technological changes, manufacturers' warranties and maintenance support (refer note 2 and 3).

- **Recognition and measurement of defined benefit obligations**

The obligation arising from defined benefit plan is determined on the basis of actuarial assumptions. Key actuarial assumptions include discount rate, trends in salary escalation, actuarial rates and life expectancy. The discount rate is determined by reference to market yields at the end of the reporting period on government bonds. The period to maturity of the underlying bonds correspond to the probable maturity of the post-employment benefit obligations. Due to complexities involved in the valuation and its long term nature, defined benefit obligation is sensitive to changes in these assumptions. All assumptions are reviewed at each reporting period (refer note 47).

- **Recognition of deferred tax assets**

Deferred tax assets and liabilities are recognised for the future tax consequences of temporary differences between the carrying values of assets and liabilities and their respective tax bases and tax credits. Deferred tax assets are recognised to the extent that it is probable that future taxable income will be available against which the deductible temporary differences, and unused tax credits could be utilised (refer note 46).

- **Recognition and measurement of other provisions**

The recognition and measurement of other provisions are based on the assessment of the probability of an outflow of resources, and on past experience and circumstances known at the balance sheet date. The actual outflow of resources at a future date may therefore, vary from the amount included in other provisions.

1.3 Key estimates and assumptions *(Continued)*

- **Determining whether an arrangement contains a lease**

The Company evaluates if an arrangement qualifies to be a lease as per the requirements of Ind AS 116. Identification of a lease requires significant judgment. The Company uses significant judgement in assessing the lease term (including anticipated renewals) and the applicable discount rate.

The Company determines the lease term as the period of a lease, together with both periods covered by an option to extend the lease if the Company is reasonably certain to exercise that option; and periods covered by an option to terminate the lease if the Company is reasonably certain not to exercise that option. In assessing whether the Company is reasonably certain to exercise an option to extend a lease, or not to exercise an option to terminate a lease, it considers all relevant facts and circumstances that create an economic incentive for the Company to exercise the option to extend the lease, or not to exercise the option to terminate the lease. The Company revises the lease term if there is a change in the period of a lease.

The discount rate is generally based on the incremental borrowing rate specific to the lease being evaluated or for a portfolio of leases with similar characteristics. (refer note 42).

- **Rebates and sales incentive**

Rebates and sales incentive are generally provided to distributors or customers as an incentive to sell the Company's products. Rebates and sales incentive are based on purchases made during the period by distributor / customer. The Company determines the estimates of rebate and sales incentive accruals primarily based on the contracts entered into with their distributors / customers and the information received for sales made by them.

- **Biological Assets**

Management uses inputs relating to production and market prices in determining the fair value of biological assets (refer note 43).

1.4 Measurement of fair values

The Company's accounting policies and disclosures require the measurement of fair values for, both financial and non-financial assets and liabilities.

The Company has an established control framework with respect to the measurement of fair values. The management regularly reviews significant unobservable inputs and valuation adjustments. If third party information, such as broker quotes or pricing services, is used to measure fair values, then the management assesses the evidence obtained from the third parties to support the conclusion that such valuations meet the requirements of Ind AS, including the level in the fair value hierarchy in which such valuations should be classified.

When measuring the fair value of a financial asset or a financial liability, the Company uses observable market data as far as possible. Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows.

Godrej Foods Limited

(Formerly Known as Godrej Tyson Foods Limited)

Notes to the financial statements (*Continued*)

for the year ended 31 March 2025

(Currency: Indian rupees)

1.4 Measurement of fair values (*Continued*)

- *Level 1*: quoted prices (unadjusted) in active markets for identical assets or liabilities.
- *Level 2*: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- *Level 3*: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

The Company recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

1.5 Material accounting policies

A. Current/non-current classification

Schedule III to the Act requires assets and liabilities to be classified as either current or non-current.

Assets

An asset is classified as current when it satisfies any of the following criteria:

- (a) it is expected to be realised in, or is intended for sale or consumption in, the entity's normal operating cycle;
- (b) it is held primarily for the purpose of being traded;
- (c) it is expected to be realised within twelve months after the balance sheet date; or
- (d) it is cash or a cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting date.

All other assets are classified as non-current.

Liabilities

A liability is classified as current when it satisfies any of the following criteria:

- (a) it is expected to be settled in, the entity's normal operating cycle;
- (b) it is held primarily for the purpose of being traded;
- (c) it is due to be settled within twelve months after the reporting date; or

the Company does not have an unconditional right to defer settlement of the liability for at least twelve months after the reporting date.

Godrej Foods Limited

(Formerly Known as Godrej Tyson Foods Limited)

Notes to the financial statements (*Continued*)

for the year ended 31 March 2025

(Currency: Indian rupees)

All other liabilities are classified as non-current

Operating cycle

Operating cycle is the time between the acquisition of assets for processing and their realisation in cash or cash equivalent

A. Current/non-current classification

Based on the nature of operations and the time between the acquisition of assets for processing and their realisation in cash and cash equivalents, the Company has ascertained its operating cycle as twelve months for the purpose of current – non-current classification of assets and liabilities.

B. Revenue

i. Sale of goods

Revenue from operations comprises of sales of goods after the deduction of discounts, goods and services tax. Discounts given by the Company includes trade discounts, volume rebates and other incentive given to the customers. Accumulated experience is used to estimate the provision for discounts. Revenue is only recognized to the extent that it is highly probable a significant reversal will not occur.

Revenue from the sale of goods are recognised when control of the goods has transferred to our customer and when there are no longer any unfulfilled obligations to the customer. Depending on the contractual terms with the customers, this can be either at the time of dispatch, delivery or upon formal acceptance by the customer. This is considered the appropriate point where the performance obligations in our contracts are satisfied as the Company no longer have control over the inventory.

ii. Dividend income

Dividend income is recognised only when the right to receive the same is established, it is probable that the economic benefits associated with the dividend will flow to the Company, and the amount of dividend can be measured reliably.

iii. Interest income

For all financial instruments measured at amortised cost, interest income is recorded using the effective interest rate (EIR), which is the rate that discounts the estimated future cash payments or receipts through the expected life of the financial instruments or a shorter period, where appropriate, to the net carrying amount of the financial assets. Interest income is included in other income in the statement of profit and loss.

C. Foreign currency

Transactions and balances

Transactions in foreign currencies are translated into the respective functional currencies of the Company at the exchange rates at the dates of the transactions or an average rate if the average rate approximates the actual rate at the date of the transaction.

C Foreign currency (*Continued*)

Foreign currency transactions are recorded on initial recognition in the functional currency, using the exchange rate at the date of the transaction. At each balance sheet date, foreign currency monetary items are reported using the closing exchange rate. Exchange differences that arise on settlement of monetary items or on reporting at each balance sheet date of the Company's monetary items at the closing rate are recognised as income and expenses in the period in which they arise.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of transactions. Non-monetary items that are measured at fair value in a foreign currency shall be translated using the exchange rates at the date when the fair value was measured.

Exchange differences are generally recognised in statement of profit and loss.

D. Employee benefits

i. Short term employee benefits

All employee benefits payable wholly within twelve months of rendering services are classified as short-term employee benefits. Short-term employee benefits are expensed as the related service is provided. A liability is recognised for the amount expected to be paid if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably. The Company has a scheme of Performance Linked Variable Remuneration (PLVR) which rewards its employees based on Profit Before tax (PBT). The PLVR amount is related to achievement of Profit Before tax (PBT) over the target set for the period April to March which is fully charged to the Statement of Profit and loss.

Short-term benefits such as salaries, wages, etc., are determined on an undiscounted basis and recognised in the period in which the employee renders the related service.

ii. Defined contribution plans

The Company's contributions paid/payable to Regional Provident Fund, Employees State Insurance Scheme, Employees Pension Schemes, 1995, are determined under the relevant approved schemes and/or statutes and are recognised as expense in the Statement of profit and loss during the period in which the employee renders the related service. There are no further obligations other than the contributions payable to the approved appropriate authorities.

iii. Defined benefit plans

The following post – employment benefit plans are covered under the defined benefit plans:

The Company's gratuity and leave encashment/long-term compensated absences schemes are defined benefit plans. The Company's liability for the defined benefit

schemes is actuarially determined based on the projected unit credit method. The Company's net obligations in respect of such plans is calculated by estimating the

amount of future benefit that the employees have earned in return for their services and the current and prior periods that benefit is discounted to determine its present value and the fair value of the plan asset is deducted.

iv. Gratuity Fund

The Company provides for gratuity, a defined benefit retirement plan covering eligible employees. The Gratuity Plan provides a lump-sum payment to vested employees at retirement, death, incapacitation or termination of employment, of an amount based on the respective employee's salary and the tenure of employment with the Company. The calculation of defined benefit obligations is performed annually by a qualified actuary using the projected unit credit method. When the calculation results in a potential asset for the Company, the recognised asset is limited to the present value of economic benefits available in the form of any future refunds from the plan or reductions in future contributions to the plan.

Re-measurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the statement of changes in equity and in the (OCI) balance sheet.

v. Other long-term employee benefits

Liability towards Long-term Compensated Absences are provided for on the basis of an actuarial valuation, using the Projected Unit Credit Method, as at the date of the Balance sheet. Actuarial gains / losses comprising of experience adjustments and the effects of changes in actuarial assumptions are immediately recognised in the Statement of profit and loss.

vi Terminal Benefits:

All terminal benefits are recognised as an expense in the period in which they are incurred.

E. Income Tax

Income tax expense comprises current and deferred tax. It is recognised in the Statement of profit and loss except to the extent that it relates to other comprehensive income (OCI).

i) Current tax

Current tax is the amount of tax payable or (recoverable) in respect of the taxable profit/ (tax loss) for the year determined in accordance with the provisions of the Income-Tax Act, 1961. Current income tax for current and prior periods is recognised at the amount expected to be paid to or recovered from the tax authorities, using tax rates and tax laws that have been enacted or substantively enacted at the reporting date.

E. Income Tax (*Continued*)

i) Current tax (*Continued*)

Current tax assets and liabilities are offset only if, the Company:

- a) has a legally enforceable right to set off the recognised amounts; and
- b) intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

ii) Deferred tax

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is not recognised for:

- temporary differences on the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss;
- taxable temporary differences arising on the initial recognition of goodwill.

Deferred tax assets are recognised for unused tax losses, unused tax credits and deductible temporary differences to the extent that it is probable that future taxable profits will be available against which they can be used. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised; such reductions are reversed when the probability of future taxable profits improves.

Unrecognised deferred tax assets are reassessed at each reporting date and recognised to the extent that it has become probable that future taxable profits will be available against which they can be used.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date. Taxes relating to items recognised directly in equity or OCI is recognised in equity or OCI and not in the statement of profit and loss.

The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the Company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset only if:

- a) the entity has a legally enforceable right to set off current tax assets against current tax liabilities; and

b) the deferred tax assets and the deferred tax liabilities relate to income taxes levied by the same taxation authority on the same taxable entity.

F. Inventories

Inventories are carried in the balance sheet as follows:

- a) Raw materials, Packing Materials, Stock in trade and Stores and Spares: At lower of cost, on weighted average basis and net realisable value.
- b) Finished Goods-Manufacturing: At lower of cost of materials, plus appropriate production overheads and net realisable value.

The cost of inventories have been computed to include all cost of purchases, cost of conversion and other related costs incurred in bringing the inventories to the present location and condition. Slow and non-moving material, obsolescence, defective inventories are duly provided for and valued at lower of cost and net realisable value. Goods and materials in transit are valued at actual cost incurred up to the date of balance sheet. Materials and supplies held for use in the production of inventories are not written down if the finished products in which they will be used are expected to be sold at or above cost.

G. Property, plant and equipment

i) Recognition and measurement

Items of property, plant and equipment are measured at cost less accumulated depreciation and any accumulated impairment losses.

The cost of an item of property, plant and equipment comprises:

- a) its purchase price, including import duties and non-refundable purchase taxes, after deducting trade discounts and rebates.
- b) any costs directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management.
- c) the initial estimate of the costs of dismantling and removing the item and restoring the site on which it is located, the obligation for which an entity incurs either when the item is acquired or as a consequence of having used the item during a particular period for purposes other than to produce inventories during that period.

Income and expenses related to the incidental operations, not necessary to bring the item to the location and condition necessary for it to be capable of operating in the manner intended by management, are recognised in the statement of profit and loss.

If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted and depreciated for as separate items (major components) of property, plant and equipment.

Any gain or loss on disposal of an item of property, plant and equipment is recognised in the Statement of Profit and Loss.

ii) Subsequent expenditure

Subsequent expenditure is capitalised only if it is probable that the future economic benefits associated with the expenditure will flow to the Company.

iii) Depreciation

Depreciation on property plant & equipment is provided in accordance with the provisions of Schedule II of the Companies Act 2013, on Straight Line Method. Depreciation on additions / deductions is calculated on pro rata basis from/up to the month of additions/deductions. The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

The estimated useful lives of items of property, plant and equipment are as follows:

Asset Group	Management estimate of useful life (in year)	Useful life as per schedule II (in year)
Property Plant & Equipment		
Plant & Machinery	2 to 20	10
Deep freezers and viscooler	7.5	10
Computer Hardware	4	4
Poultry handling Equipment	2	10
Moulds/Cylinders/mobile instruments	2	2
Leasehold improvement and Equipment	Over lease period	Over lease period
Building	30	30
Furniture & Fixtures	10	10
Vehicles	8	8
Motor Cycles	10	10
Office and Other equipment	5	5
Laboratory Equipment	10	10
Road other than RCC Carpet	5	5
Right of use Assets		
Leasehold land	Over lease period	Over lease period

For these class of assets, based on internal and external assessment, requirement of refurbishments and past experience the management believes the useful life of the assets are appropriate which are lower than those prescribed under Part C of Schedule II of the Companies Act, 2013.

Assets costing less than INR. 5,000 are fully depreciated in the year of purchase/acquisition.

H. Intangible assets

Recognition and measurement

Intangible assets are recognised when it is probable that the future economic benefits that are attributable to the assets will flow to the Company and the cost of the asset can be measured reliably.

Intangible assets viz. Marketing network / know-how, trademark and brands, technical know-how fees, grant of licenses and computer software, which are acquired by the Company and have finite useful lives, are measured at cost less accumulated amortisation and any accumulated impairment losses.

Amortisation

Amortisation is calculated to write off the cost of intangible assets less their estimated residual values using the straight-line method over their estimated useful lives, and is generally recognised in the Statement of profit and loss.

The intangible assets are amortised over the estimated useful lives as given below:

- Computer software : 6 years

Amortisation methods, useful lives and residual values are reviewed at each reporting date and adjusted if appropriate.

I. Borrowing costs

Borrowing costs that are directly attributable to the acquisition or construction of a qualifying asset that necessarily takes a substantial period of time to get ready for its intended use are capitalised as part of the cost of that asset till the date it is ready for its intended use or sale. Other borrowing costs are recognised as an expense in the period in which they are incurred.

Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

i) Financial assets

Classification

The Company classifies its financial assets in the following measurement categories:

Where assets are measured at fair value, gains and losses are either recognised entirely in the Statement of profit and loss (i.e. fair value through profit or loss) or recognised in other comprehensive income (i.e. fair value through other comprehensive income).

J. Financial Instruments (*Continued*)

i) Financial assets (*Continued*)

Classification (*Continued*)

A financial asset that meets the following two conditions is measured at amortised cost (net of any write down for impairment) unless the asset is designated at fair value through profit or loss under the fair value option.

Business model test: The objective of the Company's business model is to hold the financial asset to collect the contractual cash flows (rather than to sell the instrument prior to its contractual maturity to realise its fair value changes).

Cash flow characteristics test: The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Initial recognition & measurement

At initial recognition, the Company measures a financial asset at fair value plus, in the case of a financial asset not recorded at fair value through the Statement of profit and loss, transaction costs that are attributable to the acquisition of the financial asset.

Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a Company of similar financial assets) is primarily derecognised (i.e. removed from the Company's balance sheet) when:

- The rights to receive cash flows from the asset have expired, or
- The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Company has transferred substantially all the risks and rewards of the asset, or (b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset

When the Company has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control

of the asset, the Company continues to recognise the transferred asset to the extent of the Company's continuing involvement. In that case, the Company also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Company could be required to repay.

Impairment of financial assets

In accordance with Ind-AS 109, the Company applies expected credit loss (ECL) model for measurement and recognition of impairment loss on the following financial assets and credit risk exposure:

- a) Financial assets that are debt instruments, and are measured at amortised cost e.g. loans, deposits, and bank balance.
- b) Trade receivables - The application of simplified approach does not require the Company to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition. Trade receivables are tested for impairment on a specific basis after considering the sanctioned credit limits, security like letters of credit, security deposit collected etc. and expectations about future cash flows.

i) Financial liabilities

Classification

Financial liabilities and equity instruments issued by the Company are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument.

The Company classifies all financial liabilities as subsequently measured at amortised cost, except for financial liabilities at fair value through the Statement of profit and loss. Such liabilities, including derivatives that are liabilities, shall be subsequently measured at fair value.

Godrej Foods Limited

(Formerly Known as Godrej Tyson Foods Limited)

Notes to the financial statements (*Continued*)

for the year ended 31 March 2025

(Currency: Indian rupees)

J. Financial Instruments (*Continued*)

ii) Financial liabilities (*Continued*)

Initial recognition and measurement

Financial liabilities are recognised when the Company becomes a party to the contractual provisions of the instrument. Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable and incremental transaction cost.

1.5 Material accounting policies (*Continued*)

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit and loss.

The Company's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts, financial guarantee contracts and derivative financial instruments.

Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the Statement of profit and loss.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

K. Provisions, contingent liabilities and contingent assets

Provisions are recognised when there is a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

The expenses relating to a provision is presented in the Statement of profit and loss net of any reimbursement.

Godrej Foods Limited

(Formerly Known as Godrej Tyson Foods Limited)

Notes to the financial statements (*Continued*)

for the year ended 31 March 2025

(Currency: Indian rupees)

1.5 Material accounting policies (*Continued*)

If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows specific to the liability. The unwinding of the discount is recognised as finance cost.

A provision for onerous contracts is measured at the present value of the lower of the expected cost of terminating the contract and the expected net cost of continuing with the contract. Before a provision is established, the Company recognises any impairment loss on the assets associated with that contract.

A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but will probably not, require an outflow of resources. When there is a possible obligation of a present obligation in respect of which the likelihood of outflow of resources is remote, no provision disclosure is made.

A contingent asset is not recognised but disclosed in the financial statements where an inflow of economic benefit is probable.

Commitments includes the amount of purchase order (net of advance) issued to parties for completion of assets.

Provision, contingent assets, contingent liabilities and commitments are reviewed at each balance sheet date.

L. Leases

A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Company as a lessee

The Company accounts for each lease component within the contract as a lease separately from non-lease components of the contract and allocates the consideration in the contract to each lease component on the basis of the relative stand-alone price of the lease component and the aggregate stand-alone price of the non-lease components.

The Company recognises right-of-use asset representing its right to use the underlying asset for the lease term at the lease commencement date. The cost of the right-of-use asset measured at inception shall comprise of the amount of the initial measurement of the lease liability adjusted for any lease payments made at or before the commencement date less any lease incentives received, plus any initial direct costs incurred and an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset or restoring the underlying asset or site on which it is located. The right-of-use assets is subsequently measured at cost less any accumulated depreciation, accumulated impairment losses, if any and adjusted for any remeasurement of the lease liability. The right-of-use assets is depreciated using the straight-line method from the commencement date over the shorter of lease term or useful life of right-of-use asset. The estimated useful lives of right-of use assets are determined on the same basis as those of property, plant and equipment. Right-of-use assets are tested for impairment whenever there is any indication that their carrying amounts may not be recoverable. Impairment loss, if any, is recognised in the statement of profit and loss.

Godrej Foods Limited

(Formerly Known as Godrej Tyson Foods Limited)

Notes to the financial statements *(Continued)*

for the year ended 31 March 2025

(Currency: Indian rupees)

1.5 Material accounting policies *(Continued)*

The Company measures the lease liability at the present value of the lease payments that are not paid at the commencement date of the lease. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the Company uses incremental borrowing rate. For leases with reasonably similar characteristics, the Company, on a lease by lease basis, may adopt either the incremental borrowing rate specific to the lease or the incremental borrowing rate for the portfolio as a whole. The lease payments shall include fixed payments, variable lease payments, residual value guarantees, exercise price of a purchase option where the Company is reasonably certain to exercise that option and payments of penalties for terminating the lease, if the lease term reflects the lessee exercising an option to terminate the lease. The

lease liability is subsequently remeasured by increasing the carrying amount to reflect interest on the lease liability, reducing the carrying amount to reflect the lease payments made and remeasuring the carrying amount to reflect any reassessment or lease modifications or to reflect revised in-substance fixed lease payments. The company recognises the amount of the re-measurement of lease liability due to modification as an adjustment to the right-of-use asset and statement of profit and loss depending upon the nature of modification. Where the carrying amount of the right-of-use asset is reduced to zero and there is a further reduction in the measurement of the lease liability, the Company recognises any remaining amount of the re-measurement in statement of profit and loss.

The Company has elected not to apply the requirements of Ind AS 116 Leases to short-term leases of all assets that have a lease term of 12 months or less, leases which have variable payment and leases for which the underlying asset is of low value. The lease payments associated with these leases are recognized as an expense on a straight-line basis over the lease term.

L. Impairment of non-financial assets

The carrying values of assets/cash generating units at each balance sheet date are reviewed for impairment if any indication of impairment exists. If the carrying amount of the assets exceed the estimated recoverable amount, an impairment is recognised for such excess amount.

The recoverable amount is the greater of the net selling price and their value in use. Value in use is arrived at by discounting the future cash flows to their present value based on an appropriate discount factor that reflects current market assessments of the time value of money and the risk specific to the asset

When there is indication that an impairment loss recognised for an asset (other than a revalued asset) in earlier accounting periods which no longer exists or may have decreased, such reversal of impairment loss is recognised in the Statement of profit and loss, to the extent the amount was previously charged to the Statement of profit and loss. In case of revalued assets, such reversal is not recognised.

M. Cash and cash equivalents

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, net of outstanding bank overdrafts as they are considered an integral part of the Company's cash management.

N. Government grants / subsidies

Grants are recognised when there is reasonable assurance that the grant will be received and all attached conditions will be complied with.

When the grant relates to an asset, the cost of the asset is shown at gross value and grant thereon is treated as a deferred grant which is recognised as income in the Statement of Profit and Loss over the period and in proportion in which depreciation is charged.

Revenue grants are recognised in the Statement of Profit and Loss in the same period as the related cost which they are intended to compensate are accounted for.

O. Biological assets

Biological assets are measured at fair value less costs to sell, with any change therein recognised in Statement of profit and loss.

P. Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker (CODM).

Q. Earnings Per Share ("EPS")

The basic Earnings Per Share ("EPS") is computed by dividing the net profit / (loss) after tax for the year attributable to the equity shareholders by the average number of equity shares outstanding during the year.

For the purpose of calculating diluted earnings per share, net profit/(loss) after tax for the year attributable to the equity shareholders and the weighted average number of equity shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares.

R. Trade and other payables

These amounts represent liabilities for goods and services provided to the Company prior to the end of financial year which are unpaid. The amounts are unsecured and are usually paid within 30 days of recognition. Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the reporting period. They are recognised initially at their fair value and subsequently measured at amortised cost using the effective interest method.

S. Statement of Cash flows

The Company's statements of cash flows are prepared using the Indirect method, whereby profit for the period is adjusted for the effect of transaction of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payment and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Company are segregated.

T. Statement of Cash flows

Cash and cash equivalents comprise cash and bank balances and short-term fixed bank deposits that are subject to an insignificant risk of changes in value. These also include bank overdrafts and cash credit facility that form an integral part of the company's cash management.

U. Events after reporting date

Where events occurring after the balance sheet date provide evidence of conditions that existed at the end of the reporting period, the impact of such events is adjusted with the IND AS financial statements. Otherwise, events after the balance sheet date of material size or nature are only disclosed.

40.1 The Hon'ble Supreme Court of India ("SC") by their order dated February 28, 2019, in the case of Surya Roshni Limited & others v/s EPFO, set out the principles based on which allowances paid to the employees should be identified for inclusion in basic wages for the purposes of computation of Provident Fund contribution. The Company has started complying with this prospectively from the month of March 2019. In respect of the past period there are significant implementation and interpretative challenges that the management is facing and is awaiting for clarity to emerge in this regard, pending which, this matter has been disclosed under the Contingent liabilities section in the financial statements. The impact of the same is not ascertainable.

41 Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the Chief Operating Decision Maker ("CODM") of the Company. The CODM, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the Managing Director (MD) and Chief Operating Officer (COO) of the Company. The Company has identified only one segment i.e. Poultry and processed foods as reporting segment based on the information reviewed by CODM.

There are no transactions with single external customers which amounts to 10% or more of the Company's revenue.

As the Company mainly caters to the need of domestic market and the total export turnover is not significant, separate geographical segment information has not been given in the financial statements.

C. Risk Management strategies related to poultry activities

The Company is exposed to the following risks relating to its poultry operation:

i. Regulatory and environmental risks

The Company is subject to laws and regulations in the country in which it operates. It has established various environmental policies and procedures aimed at compliance with the local environmental and other laws.

ii. Supply and demand risks

The Company is exposed to risks arising from fluctuations in the price of Hatching Eggs, Commercial Day Old Chicks and Live Birds. When prices goes down the management possibly manages this risk by diverting more Live birds for processing and when prices goes up, the management sells more Hatching eggs, Day old chicks and Live birds.

iii. Climate and other risks

The Company's Live stock is exposed to the extreme climatic changes in summer and winter season. However, the Company has extensive processes in place aimed at monitoring and mitigating those risks, including regular health inspections of Live Stock and adopting industry best practices by professional qualified veterinarian doctors.

A reasonably possible change of 10% in Estimated fair value of Live stock at the reporting date would have increased (decreased) profit or loss by the amounts shown below.

i. Risk management framework

The Company's management has overall responsibility for the establishment and oversight of the Company's risk management framework. The management is responsible for developing and monitoring the Company's risk management policies.

The Company's risk management policies are established to identify and analyse the risks faced by the Company, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities. The Company, through its training and management standards and procedures, aims to maintain a disciplined and constructive control environment in which all employees understand their roles and obligations.

The audit committee oversees how management monitors compliance with the company's risk management policies and procedures, and reviews the adequacy of the risk management framework in relation to the risks faced by the Company. The audit committee is assisted in its oversight role by internal audit. Internal audit undertakes both regular and ad-hoc reviews of risk management controls and procedures, the results of which are reported to the audit committee.

44.2 Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's receivables from customers and loans and advances.

The carrying amount of following financial assets represents the maximum credit exposure:

Trade receivables and loans and advances.

The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer and the geography in which it operates. Credit risk is managed through credit approvals, establishing credit limits and continuously monitoring the creditworthiness of customers to which the Company grants credit terms in the normal course of business.

Management has established a credit policy under which each new customer is analysed individually for creditworthiness before the Company's standard payment and delivery terms and conditions are offered. Further, for domestic sales, the Company segments the customers into Distributors, Institution, Quick service restaurant (QSR) and Others for credit monitoring.

The Company maintains security deposits for sales made to its distributors. For other trade receivables, the Company individually monitors the sanctioned credit limits as against the outstanding balances. Accordingly, the Company makes specific provisions against such trade receivables as per company policy (>120 to 180 days 25%, >180 to 365 days 50%, >365 days 100%) and monitors the same at periodic intervals.

The Company monitors each loans and advances given and makes any specific provision wherever required.

The Company establishes an allowance for impairment that represents its estimate of expected losses in respect of trade receivables and loans and advances.

In assessing the recoverability of trade receivables and other financial assets, the Company has considered internal and external information up to the date of approval of these financial statements.

The maximum exposure to credit risk for trade and other receivables by type of counterparty was as follows:

	Carrying amount	
	31 March 2025	31 March 2024
Trade and other receivables	5,887.17	5,359.44
Domestic		
Distributors	493.88	856.66

44.3 Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

The Company had unutilised credit limits from banks of INR 344.55 lakhs (31 March 2024: INR 1,070.16 lakhs).

Exposure to liquidity risk

The following are the remaining contractual maturities of financial liabilities at the reporting date. The amounts are gross and undiscounted, and include estimated interest payments and exclude the impact of netting agreements.

44.4 Interest risk

Interest rate risk

Interest rate risk can be either fair value interest rate risk or cash flow interest rate risk. Fair value interest rate risk is the risk of changes in fair values of fixed interest bearing financial assets or borrowings because of fluctuations in the interest rates, if such assets/borrowings are measured at fair value through profit or loss. Cash flow interest rate risk is the risk that the future cash flows of floating interest bearing borrowings will fluctuate because of fluctuations in the interest rates.

Exposure to interest rate risk

The interest rate profile of the Company's interest-bearing financial instruments as reported to the management of the Company is as follows.

	Nominal amount	
	31 March 2024	31 March 2023
Fixed rate instruments		
Financial assets	1,040.71	84.83
Financial liabilities	2,266.89	3,329.94
	(1,226.18)	(3,245.11)
Variable rate instruments		
Financial assets	-	-
Financial liabilities	7,445.18	5,926.57
	(7,445.18)	(5,926.57)

Interest rate sensitivity - fixed rate instruments

The Company's fixed rate borrowings and fixed rate bank deposits are carried at amortised cost. They are therefore not subject to interest rate risk as defined in Ind AS 107, since neither the carrying amount nor the future cash flow will fluctuate because of a change in market interest rates.

Interest rate sensitivity - variable rate instruments

31 March 2025	Profit or loss		Equity, net of tax	
	100 bp increase	100 bp decrease	100 bp increase	100 bp decrease
INR in lakhs				
Variable-rate instruments	(74.45)	74.45	(48.44)	48.44
Cash flow sensitivity (net)	(74.45)	74.45	(48.44)	48.44

31 March 2024	Profit or loss		Equity, net of tax	
	100 bp increase	100 bp decrease	100 bp increase	100 bp decrease
INR				
Variable-rate instruments	(59.27)	59.27	(38.56)	38.56
Cash flow sensitivity (net)	(59.27)	59.27	(38.56)	38.56

The risk estimates provided assume a change of 100 basis points interest rate for the interest rate benchmark as applicable to the borrowings summarised above. This calculation also assumes that the change occurs at the balance sheet date and has been calculated based on risk exposures outstanding as at that date. The period end balances are not necessarily representative of the average debt outstanding during the period.

44.5 Currency risk

Market risk

Market risk is the risk that changes in market prices – such as foreign exchange rates, interest rates and equity prices – will affect the Company's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

The Board of Directors and its Audit Committee are responsible for overseeing the Company's risk assessment and management policies. The major market risks of foreign exchange, interest rate and counter-party risk are managed centrally by Company's treasury department, which evaluates and exercises independent control over the entire process of market risk management.

The Company has a written treasury policy, and reconciliations of the Company's positions with counter-parties are performed at regular intervals.

The Company adopts a policy of ensuring that between 80% and 90% of its interest rate risk exposure is at a fixed rate. Hence, interest rate risk is covered by entering into fixed-rate instruments to ensure variability in cash flows attributable to interest rate risk is minimized.

Currency risk

The functional currency of Company is primarily the local currency in which it operates. The currencies in which these transactions are primarily denominated are INR. The Company is not exposed to currency risk in respect of transactions in foreign currency as there is no amount receivable or payable in foreign currency as at 31 March 2025.

Significant management judgment is required in determining provision for income tax, deferred income tax assets and liabilities and recoverability of deferred income tax assets.

The Company has recognised deferred tax asset to the extent that the same will be recoverable using the estimated future taxable income based on the approved business plans and budgets of the Company. The Company is expected to generate taxable income from the financial year ended 31 March 2025 onwards. MAT credit can be carried forward for a period of 15 assessment year respectively as per the tax regulations and the Company expects to recover the losses.

The Company offsets tax assets and liabilities if and only if it has a legally enforceable right to set off current tax assets and current tax liabilities and the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same tax authority.

47 Employee benefits

The Company contributes to the following post-employment benefit plans in India.

Defined Contribution Plans:

The Company's contributions paid/payable to Regional Provident Fund, Employees State Insurance Scheme, Employees Pension Schemes, 1995, are determined under the relevant approved schemes and/or statutes and are recognised as expense in the Statement of profit and loss during the period in which the employee renders the related service. There are no further obligations other than the contributions payable to the approved appropriate authorities.

The Company recognised INR 202.53 lakhs (31 March 2024: INR 218.13 lakhs) towards provident fund contribution in the Statement of profit and loss.

Defined Benefit Plan:

The Company's gratuity and leave encashment/long-term compensated absences schemes are defined benefit plans. The Company's liability for the defined benefit schemes is actuarially determined based on the projected unit credit method. The Company's net obligations in respect of such plans is calculated by estimating the amount of future benefit that the employees have earned in return for their services and the current and prior periods that benefit is discounted to determine its present value and the fair value of the plan asset is deducted.

In accordance with the provisions of the Payment of Gratuity Act, 1972, the Company has a defined benefit plan which provides for gratuity payments. The plan provides a lump sum gratuity payment to eligible employees at retirement or termination of their employment. The amounts are based on the respective employee's last drawn salary and the years of employment with the Company.

Liabilities in respect of the gratuity plan are determined by an actuarial valuation, based upon which the Company makes annual contributions to the Group Gratuity Cum Life Assurance Schemes administered by the ICICI Prudential Life Insurance, a funded defined benefit plan for qualifying employees. Trustees administer the contributions made by the Company to the gratuity scheme.

The most recent actuarial valuation of the defined benefit obligation along with the fair valuation of the plan assets in relation to the gratuity scheme was carried out as at 31 March 2025. The present value of the defined benefit obligations and the related current service cost and past service cost were measured using the Projected Unit Credit Method.

Based on the actuarial valuation obtained in this respect, the following table sets out the details of the employee benefit obligation and the plan assets as at balance sheet date:

Particulars	31 March 2025	31 March 2024
Defined benefit obligation	544.35	501.97

iv. Sensitivity analysis

Reasonably possible changes at the reporting date to one of the relevant actuarial assumptions, holding other assumptions constant, would have affected the defined benefit obligation by the amounts shown below.

	31 March 2025		31 March 2024	
	Increase	Decrease	Increase	Decrease
Discount rate (1% movement)	(25.95)	28.69	(23.93)	26.47
Future salary growth (1% movement)	28.45	(26.22)	26.39	(24.29)
Rate of employee turnover (1% movement)	-1.15	1.15	-0.36	0.28

The sensitivity analyses above have been determined based on a method that extrapolates the impact on defined benefit obligation as a result of reasonable changes in key assumptions occurring at the end of the reporting year.

v. Expected future cash flows

The expected future cash flows in respect of gratuity were as follows

Expected future benefit payments	31 March 2025	31 March 2024
1st Following year	59.67	67.71
2nd Following year	64.42	55.70
3rd Following year	78.66	58.35
4th Following year	69.20	72.22
5th Following year	59.02	49.35
Thereafter	480.97	475.71

Other long-term employee benefits:

The charge towards compensated absences for the year ended 31 March 2025 based on actuarial valuation using the projected accrued benefit method is INR 41.31 lakhs (31 March 2024 INR 43.21 lakhs).

Terminal Benefits: All terminal benefits including voluntary retirement compensation are fully charged to the Statement of profit and loss.

Incentive Plans: The Company has a scheme of Performance Linked Variable Remuneration (PLVR) which rewards its employees based on Profit Before Tax (PBT).

48 Capital management

The Company's policy is to maintain a strong capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business.

For the purposes of the Company's capital management, capital includes issued capital and all other equity reserves. The primary objective of Company's capital management is to maximize shareholder value. The Company manages its capital structure and makes adjustments in the light of changes in economic environment and the requirements of the financial covenants, if any.

The Company monitors capital using a ratio of 'adjusted net debt' to 'Total equity'. For this purpose, adjusted net debt is defined as total borrowings, comprising interest-bearing loans and borrowings (excluding lease liabilities), less cash and cash equivalents.

The Company's adjusted net debt to equity ratio as at 31 March 2025 and 31 March 2024 was as follows.

	31 March 2025	31 March 2024
